

**Willy A. Bachofen AG**

For many decades, Willy A. Bachofen AG have specialised in milling and fine dispersion technology with its world renowned agitator bead mills. The WAB head quarter is based in Muttenz, Switzerland and operates with 4 subsidiary companies located in UK, Germany, France and China. A highly qualified WAB workforce operates from over 45 sales and service centres throughout the world. The stringent quality requirements which the WAB brands DYNO<sup>®</sup>-MILL, dyna-MIX<sup>®</sup> and TURBULA<sup>®</sup> have to fulfil demand state-of-the-art engineering standards, quality performance and material expertise.

In the particle size reduction programmes of WAB and BHR Group, the quality boundaries are forever being pushed further in an environment of constantly changing demands. To meet these demands Willy A. Bachofen AG have always placed itself in the customers environment to better understand their targets and aspirations. Today, Willy A. Bachofen AG became a member of DOMINO, an industrial consortium run by BHR Group. DOMINO deals with the dispersion of micro- and nano-particles into liquids. Joint values have been identified that will allow both parties to create synergies through bead milling studies. The inclusion of WAB AG offers all new and existing members the possibility to better combine their products and services. With an extensive range of agitator bead mills and many years of expertise, WAB AG will play its role as an active partner in the research and development programs of the DOMINO consortium.
